SAYS DUVAL MAY USE COUNTY PRISONERS TO . HARVEST POTATO CROP

TALLAHASSEE, June 1 .- (Special)-Pursuant to the request of E. E. McLin, val county, that the county commissioners of said county be allowed to hire out of the county prisoners, laborers to assist the farmers in gathering the potato crop, Governor Catts has received the follow-ing opinion from Attorney-General Swearingen:

"Hon Sidney J. Catts, Governor, Capi

"Dear Sir: Your communication of this date received, enclosing letter from Hon. E. E. McLin, United States food commissioner of Duval county, Florida, in which letter it is desired to know if the board of county, completely completely the complete of the county. letter it is desired to know if the board of county commissioners of said county may hire out of the county prisoner. That county, to be worked under the control and supervision of the county guards, in order to assist the farmers in that county in gathering the potato crop, which, because of the shortage of labor, due to war conditions, will be subject to ruin and great loss if not gathered within the next few days—the county to be paid an agreed sum per day

ty to be paid an agreed sum per day or barrel for the services of such prisoners.

"Replying to the above, will state that it is my opinion that the board of county commissioners has the discretionary authority to so hire out the convicts for the purpose stated. Such a course is not prohibited by law; in fact, it appears to be in accord with the present policy of the state to have the prisoners do road and farm labor. If their services were to be required for months, instead of days, it might be necessary that they should be let out on bids duly advertised, but this would hardly apply under the temporary emergency and conditions set out in Mr. McLin's letter.
