Summer Has Come. Ambition's Opportunity. Anti-Catholic Agitation. Taxing And Spending.

(Copyright by King Features)

Decoration day, and the double holiday have gone. All work days, excepting Sundays, from now until fall, with one break on July Fourth. Summer, and hot weather that

takes the mind from work are here. For the young summer stretches ahead, forever, every day a fortnight, every week a year. For the old, summer is only an-

other of the few links remaining, and passing, ever more swiftly.

But one thing should be said, each summer, even though only one among millions may listen.

The turtle won his race while the hare was asleep. While others rest, shirk, or postpone is the time of opportunity. A day of hard work in summer is worth two days in winter. In times of depression millions stand like men "at scratch" in a race.

Great successes date from depressions. They mean opportunity for the man that will not be discouraged.

financed by American Knights of men.

The Catholic organization called agitation, hostile to fascism, is ordered dissolved by Mussolini, in all its branches. And the pope, facing such hostility, feeling compelled to cancel the Italian eucharistic congress, called for next week, speaks of his birthday as "one of the saddest days of my

The sadness of the pontiff is accentuated, doubtless, by a feeling of isolation in Europe. In other days, he would have felt himself strongly supported, on one side by Spain, on the other by Austria, both devoted to the church, then. Now changed.

Senator King of Utah is gloomy about the national debt situation. He of the facts. It was not definitely says taxpayers will rebel and strike, if the heavy burden continues.

How will they rebel? How will they strike? They will pay, or lose their property, and pay or go to jail.

The debt of the nation, national, state, municipal, plus bonded indebtedness of corporations and real estate mortgages amounts to \$152,-

That is a considerable sum, and the head with a pistol." Senator King says all the property in the country is worth only \$350,000,- National Exchange

That estimate, fortunately, is low. It does not include the value of human intelligence. Our annual income is at least \$100,000,000,000, and a man or nation should be able to carry and wipe out a debt equal to only 30 months' income,

None the less it is true that the "docile Americans," as Northeliffe called us, allow themselves to be taxed, robbed, their money squandered by a parcel of politicians of whom a majority never have done a

useful day's work. Look at the city of New York, spending in a year more than the United States government used to spend, before the war.

If you seek a foolish nation, consider this one.

We were out of the war, did not start it. But we went in, up to our necks, lent ten thousand million dollars, spent three million men, spent heaven knows how many billions, most of it wasted by one dollar a year profiteers.

And what did we get? Prohibition, and the hatred of every nation in Europe, especially of those to whom we lent money and sent

Berry Receives Commission as Traffic Chief

Arthur L. Berry received his commission from Governor Carlton yesterday as chief of the Hillsborough county traffic department, and immediately took charge of the office and records. Berry, a traffic deputy for nine years and former police chief at Plant City, was appointed Wednesday to head the department. He succeeds Preston Smith, resigned, who had been traffic chief more than seven years, and identified with the department

It was understood that for the present the traffic department would be limited to six men, including Berry. County commissioners, who have a voice in naming traffic deputies, said there was only one immediate vacancy

It is believed the two deputies who remained after the two-year fight between Smith and the commission will be retained, together with two others whom Smith attempted to discharge last December. The commission kept the latter two and Berry on the county's payroll, awaiting outcome of their fight with Smith.

It was intimated that a new set of rules would be prepared for control of the traffic department, and that in day at the Palma Cela golf club has this matter Berry would confer with been postponed until Tuesday of next

LOAN MAN SHOT WOUT TOWN BY NEGRO HERE

Of Attack on Debtor

Alvin G. White, president of White Co., loan agents, one of two men shot by David Law, negro, at the latter's home early Sunday morning, was in a critical condition at the Tampa hospital last night, Physicians said his chance of recovery from a bullet wound in the abdomen was extremely slight.

Ernest B. Bond, manager of the White company, was the other man shot by Law. Bond, also wounded in the abdomen, showed steady improvement yesterday and will recover, physicians said. The shooting took place after an altercation that arose as ham. White and Bond went to the negro's home at Chestnut street and Willow avenue to collect \$3 claimed as the balance due on a \$5 loan.

Row Over Small Debt

According to the negro's story, he borrowed the \$5 several months ago, repaying \$4, but under an alleged agreement still owed \$3, which he had been unable to pay. One of the men went to his home Saturday night to collect, and later both returned.

White and Bond said the pistol belonged to the negro; that he first cursed and attempted to assault them, and that he drew the gun in the fight that followed. Officials said, however, that ownership of the gun had virtually been traced to White,
